

AKSHAY KUMAR

Backend Developer | Node.js | Laravel | REST APIs
kapilakshu848@gmail.com • +91 7876060984 • Himachal Pradesh, India

PROFESSIONAL SUMMARY

Results-driven Backend Developer with 1 year 3 months of hands-on professional experience in Node.js and Laravel. Specialized in building scalable RESTful APIs, implementing JWT-based authentication, and designing optimized MySQL database schemas. Proven track record of delivering enterprise-grade solutions including CRM systems, HRMS applications, and e-commerce platforms. Passionate about clean architecture, secure coding practices, and high-performance backend systems.

PROFESSIONAL EXPERIENCE

Webstep Solutions | Phase 8, Industrial Area, Sector 62, Mohali
Backend Developer – Node.js & Laravel March 2024 – Present (1 Year 3 Months)

Node.js / Express.js

- Developed and maintained scalable backend services and RESTful APIs using Node.js with Express.js, following clean architecture principles.
- Implemented JWT-based authentication and authorization with role-based access control (RBAC) and secure API endpoint design.
- Designed APIs with robust request validation, middleware pipeline handling, and centralized error management.
- Integrated payment gateways (Stripe, GoCardless, Access PaySuite) for secure transactions, subscriptions, direct debits, refunds, and webhook processing.
- Built APIs for large-scale CRM modules: dashboards, notifications, memberships, bookings, leads, waiting lists, and capacity management.
- Developed membership lifecycle management APIs covering create, freeze, transfer, cancel, and reactivate operations.

Laravel (PHP)

- Developed a role-based HRMS application using Laravel MVC architecture for Admin, User, Bidder, and Project Manager roles.
- Implemented modular dashboards with granular permission management per user role.
- Built attendance tracking, daily activity logs, and timesheet management using AJAX-powered components.
- Integrated a real-time messaging system with mention and reply functionality.
- Ensured secure authentication, password management, and profile administration across all user roles.

Database & Deployment

- Designed and optimized MySQL database schemas for high-volume transactional data with complex relational queries.
- Deployed and tested applications on Apache server, ensuring stability, performance, and uptime.
- Configured XAMPP environments for local development and staging.

TECHNICAL SKILLS

Languages: PHP, JavaScript

Backend Frameworks: Node.js, Express.js, Laravel

Databases: MySQL (schema design, query optimization, relational data)

Authentication & Security: JWT Authentication, Role-Based Access Control (RBAC)

Payment Integrations: Stripe, GoCardless, Access PaySuite (webhooks, subscriptions, refunds)

APIs: RESTful API Development, Webhook Handling

Frontend Basics: HTML, Bootstrap, AJAX

Tools & Servers: Apache, XAMPP, Git

KEY PROJECTS

Synco CRM – REST API Development

Tech Stack: Node.js, Express.js, MySQL, JWT, Stripe, GoCardless

- Architected and developed scalable REST APIs for a large-scale CRM system handling enterprise-level data volumes.
- Implemented JWT-based authentication with role-based authorization for Admin, Franchisee, Agents, Coaches, and Staff.
- Built comprehensive API modules: dashboards, notifications, memberships, bookings, trials, leads, waiting lists, and capacity management.
- Developed full membership lifecycle (create, freeze, transfer, cancel, reactivate) with business rule enforcement.
- Integrated Stripe, GoCardless, and Access PaySuite for payment processing, direct debits, retries, and webhook events.
- Optimized MySQL schemas for high-volume transactional data with centralized error handling and reusable middleware.

Role-Based HRMS (Human Resource Management System)

Tech Stack: Laravel, PHP, MySQL, AJAX

- Built a comprehensive HRMS with multi-role access control (Admin, User, Bidder, Project Manager) using Laravel MVC.
- Developed attendance tracking, daily activity logs, and timesheet management with AJAX for seamless UX.
- Integrated a real-time messaging system with mention and reply features.
- Implemented secure login, profile management, and role-specific dashboards.

E-Commerce Shopping Platform

Tech Stack: PHP, AJAX, JavaScript, Bootstrap, HTML

- Built a fully functional e-commerce platform with product categorization for Men, Women, and Kids.
- Implemented shopping cart, product listings, and a responsive UI using Bootstrap.
- Used AJAX for dynamic data updates without page reloads, enhancing performance and user experience.
- Worked on payment flow optimization and secure transaction handling.

EDUCATION

Qualification	Institution	Year	Score
B.Tech – CSE	Haryana Engineering College, Kurukshetra University	2020 – 2024	75%
Senior Secondary (12th)	Govt. Sr. Sec. School, Dhangota, HP	2019 – 2020	69%
Secondary (10th)	Sunrise Public School, Sohari, HP	2017 – 2018	74%

PERSONAL DETAILS

Date of Birth: 23 August 2002

Languages Known: Hindi, English

Address: Vill. Suglani, P/O Dhangota, Teh. Dhatwal, Distt. Hamirpur, Himachal Pradesh – 176040

Availability: Immediate
